
Author's Checklist

- A covering letter stating the material has not been published previously, and will not be submitted for publication elsewhere, and stating conflicts of interest of all listed authors, if any.
- Written permission from publishers to reproduce or adapt previously published illustrations or tables is included.
- Informed consent forms for identifiable patient descriptions, photographs and pedigrees are included.
- The manuscript must be written by MS Word, typing with 12-point font and double-space on A4 size.
- Sequence of title page, abstract and keywords, introduction, methods, results, discussion, references, and tables and figure legends. All pages should be numbered consecutively starting from the title page.
- Title page with article title, authors full name(s) and affiliation, address for correspondence (including telephone and fax numbers and e-mail address), running title (less than 10 words), and footnotes, if any.
- Abstract in structured format for original article and in unstructured format for case reports (maximum of 250 words), and keywords as in MeSH.
- All table and figure numbers are found in the text.
- References listed in a proper format. Check that all references listed in the references section are cited in the text and vice versa.
- The resolution of pictures and photographs should exceed 300 dpi.
- Research or project support/funding is noted in acknowledgments section.
- Have each author read the manuscript and agree with this submission.
